

STOWAWAY® UTILITY BOXES | HYDRO-FLO™ STOWAWAY®

Plano's new Hydro-Flo™ StowAway® Utility Boxes have hundreds of small holes positioned on the top and bottom of the box that allow air to circulate around wet bait letting them dry, thus resisting deterioration that can happen inside a sealed box. Available in a 3600 size and 3700 standard and deep sizes, these boxes are sure to find their way into many anglers' tackle boxes and bags.
